

The Key Questions we need to ask in a Healthy Partnership:

	Partnership Issue or Component	Key Question
	Shared Vision	What has God invited us to do together?
VISION	Compatibility	What binds us together? What could interfere with our relationship and hurt or even destroy a healthy partnership?
	Ground Rules	How do we work together successfully?
	Alliance Champions	Who is responsible to make the partnership work?
RELATIONSHIP	Intercultural Understanding	What cultural differences may help or hinder the partnership relationship?
	Mutual Trust	What gives us confidence in each other?
	Meaningful Results	What difference will it really make in the work of the Gospel we want to do together?
RESULTS	Documentation	How do we keep track of agreements, contributions, outcomes, etc?
	Learning and Change	How do we handle changes, new opportunities, unexpected developments and disappointments?
NOTE	All above are linked to each other. For example, how you achieve vision depends in part on how well you work together.	What other questions have the above questions raised?
